

Blueberry Buckle Table Runner

You Need:

3 fat quarters, be sure there is contrast either color or shade

1.5 yards for backing and binding

Craft size batting

Cut your fat quarter into 7 strips that measure 2.5 inches by 22 inches

Choose which fabrics are on the sides and which is in the middle. Sew one of your side fabrics to a middle fabric. This can be chain pieced.

Next, add the third fabric to the other side of your middle fabric. This too can be chain pieced. Press seams toward the dark fabric. You will have 7 strips that measure 6.5" X 22".

Cut these strips into (3) 6.5" X 6.5" squares. You will have 21 Squares.

Arrange your blocks into two rows of three blocks that look like these two rows.

Sew the rows together to make your table runner.

Cut (2) 2.5" X WOF strips from the 1.5 yards of backing and binding fabric. Set aside. This will be for your binding. Use the remaining fabric for the back of your table runner.

Make a quilt sandwich using the backing fabric and batting and quilt as you like. Use the 2.5 inch strips for your binding.
